Sir:

RESPONSE TO RESTRICTION REQUIREMENT

Responsive to the Official Action dated October 28, 2002, please amend this application as follows:

**REMARKS**

Claims 1-20 are pending in the present application. The Examiner requires restriction between Group I, claims 1-3 and 5-20 which Examiner states is drawn to a method using an endogenous enzyme, classified in class 514, subclass 75; and Group II, claim 4, which Examiner states is drawn to a method using a gene therapy induced enzyme, classified in class 435, subclass 69.1.

Applicant elects Group I, claims 1-3 and 5-20. This election is made without traverse. However, Applicant would like to point out that claim 1 is not drawn only to a method of using an endogenous enzyme but rather is generic and would include a method wherein the enzyme that is hydrolyzing the prodrug is expressed by tumor cells following gene therapy. Thus if generic claim 1 is found to be allowable, claim 4 should no longer be withdrawn as it is fully embraced by the allowable generic claim.

The Assistant Commissioner for Patents is hereby authorized to charge any additional fees or credit any excess payment which may be associated with this communication to our deposit account **04-1679**.

Respectfully submitted,

Dated: 11/26/02
